What is the Institute of Professional Engineering Technologists (IPET)?

IPET, formerly known as SAARET (South African Association of Registrable Engineering Technologists) was founded in 1981 as a voluntary body to serve the interests of professional engineering technologists *in all engineering disciplines*. IPET is an Engineering Council of South Africa (ECSA) recognised Voluntary Association.

Some Advantages of Membership are;

- Members are eligible for a concession on their annual Engineering Council of SA (ECSA) registration fee.
The concession usually covers much of the annual IPET fee.
The IPET year fee is one of the lowest of all the engineering institutes and associations.
- Members receive one credit per annum on ECSA's Continuing Professional Development (CPD) requirements.
- IPET assesses courses by providers for CPD credits and members get a discount on said courses.
- IPET endeavors to protect the image & status of registered persons and promotes the recognition of the profession.
- IPET is an ECSA recognized Voluntary Association (VA) and it nominates persons to assist ECSA in its duties.
- IPET publishes newsletters, which cover news about ECSA, the engineering profession, training and issues affecting the profession. Many such items do not appear in the general press. News also appears on the IPET Website.
www.ipet.co.za
- IPET is influential in setting and maintaining standards for ECSA registration.
- Strong IPET membership assists in lobbying and representation on relevant forums etc.

Membership of IPET.

Pr Tech Eng's qualify for full membership of IPET. Graduate membership is open to persons who have successfully completed their studies.

Membership is awarded at the discretion of IPET.
